

Greetings Friends,

Here are some of the things we're thanking God for since our last newsletter...

Dream Center...

We have been having a great time in our new **ABC Classroom** – all the children in the school now have an opportunity to **engage** in art, Bible time and reading. It's great to see how freely they **express** themselves in this safe space where their **self-esteem** can flourish >> a healthy self-esteem is a powerful tool against child prostitution.

It's a R.A.P. for Freedom 40

Many teenage girls in the slums will skip school to engage in dangerous money generating activities like prostitution. In an effort to curb this, we introduced the

R.A.P. Initiative (**R**ewards for **A**ttendance **P**rogram). The most popular reward so far is small bottles of body **lotion** (like the ones in hotel bathrooms). It's amazing how tiny things can make such a **huge** difference...

****Freedom 40** is our sanitary towel provision program. Many girls in the slums resort to "sex for money" in order to buy sanitary towels – we're helping to change that.

Gifts and Goodies from Near and Far...

We are always grateful to our One Lamb friends for the **wonderful** gifts given for our programs.

Some of the items we received recently include a new **whiteboard**, art books

and folders for the younger classes, and lots of biscuits for all the **children**. We also gladly received lovely stationery and **art supplies** from our friend all the way in Canada.

A most unique gift brought by some friends who live in the US was a "**Proclaimer**" which is a **solar** powered device that narrates the New Testament. It has been a welcome addition to our art classes and our lunch hour free drawing time. What a great way for the children to improve on their English while hearing the **Gospel**!

29:11 Scholars Rising

The girls on our 29:11 Scholarship Program are coming along very nicely – learning how to read, growing in **confidence** and developing leadership skills. Two of them

did so well in Class One last year, that they skipped Class 2 altogether and joined Class 3 this year, **wow!** We are so grateful to our **partners** who are sponsoring our scholars – what an amazing difference a good education is making in their lives... Thank you!

Precious moments... During the holiday camp this April, a major highlight was our painting day. The children adventurously created little **masterpieces** with careful strokes of their brushes. For most of the children, this was their first ever **experience** painting (many of them are over 10 years old). Expressing themselves through this new medium was not only thoroughly enjoyable but it was also clearly **therapeutic**...

We are so thankful to all our supporters who give of their time, resources and prayers. Bless you!

Please pray with us for continued impact against child prostitution. If you would like to find out more about our programs, kindly send an email to info@onelamb.org, or visit www.onelamb.org or contact Ciru on +254 732 579 454. Thank you.
